# Suiting Program's Curricula to Client Needs

## Expertise

Our lecturers and instructors are both high-caliber NES faculty with Western PhD in economics and finance, and leading business experts of financial, banking, investment, and industrial sectors

## Flexibility

We offer courses in various formats, ranging from 1-day super-intensive, weekend modules, to 1-year long learning programs. Our clients can build a comprehensive program out of 70+ thematic modules

## Proficiency

Most of our courses are available at three levels of detail – fundamental, advanced, or proficient, – depending on what level of expertise is required

## Agility

Upon first contact it usually takes us no more than two weeks to offer a client a fully prepared learning module of her choice

## Value-for-Money

We provide higher quality for a reasonable price, as NES bears no large overhead costs. We can deliver the programs either on client's premises or on the NES campus in Skolkovo
