

FinTech

Third module, 2019-2020 academic year

Sergey Kovbasyuk
New Economic School
skovbasyuk@nes.ru

Course description

This course will cover main developments in FinTech: digital and cryptocurrencies, lending platforms, crowdfunding, robo-advisors, rating agencies, feedback/rating systems, insuretech.

Course requirements, grading, and attendance policies

The final grade will be based on the final exam (60%), and home assignments (40%). Home assignments will be two-page reports on papers from the syllabus. Deadlines are as follows: HA1 28.01, HA2 04.02, HA3 11.02, HA4 18.02, HA5 25.02.

Course contents

The course will cover the following topics

1. Digital and cryptocurrencies.
2. Lending platforms and crowdfunding.
3. Robo-advisors.
4. Insuretech.
5. Rating agencies, feedback and rating systems.
6. Regulation of FinTech.

Description of course methodology

Main concepts will be introduced during lectures; the final exam will be based on the material covered during lectures and on the extra material provided for the class.
