

REGULATION OF FINANCIAL MARKETS

Module 5, 2017/18

Alexey Savatyugin

Course description

This course provides a comprehensive view on the regulation of modern financial markets. We will discuss approaches to the regulation applied in different countries and their applicability to Russia.

Grading

The course grade will be based on group assignments (40%) and final exam (60%). Active class participation may contribute to the grade if it is on the margin.

Course contents

Class 1. Financial markets: participants and infrastructure. Different theoretical approaches to their regulation.

Class 2. International experience in financial markets regulation: national and supranational level.

Class 3. History, legal framework and practice of state regulation and self-regulation of financial markets in Russia.

Description of course methodology

The course is taught as a mix of lectures with interactive discussions of key concepts and mini-cases. Students are expected to prepare in advance to the classes by studying the assigned readings.
